Civics Certificate in WEST and Sociology

Description

The Civics Certificate in WEST & Sociology advances critical thinking about race, class, gender, sexuality, disability, and other socio-cultural hierarchies by focusing on dynamic relationships between the U.S. Government and marginalized populations within American society. The Civics Certificate in WEST & Sociology encourages a broader understanding of citizenship, democracy, obligations, participation, protest, and social justice. The Civics Certificate in WEST & Sociology helps, in part, to fulfill our vision that students develop and refine skills to shape a collective future in which equity and justice prevail.

Requirements

- Four courses for a total of twelve credits
- A minimum grade of 3.3 is required for each course applied toward the certificate.
- Nine credits must be at the 3000 level or above in Sociology or WEST or cross-listed course; independent studies may not be used to earn this certificate.
- Contact the Certificate Director for more details.
